

HALAR KECO Coatings

Halar offers high impact strength and extreme chemical/corrosion resistance. Halar can also provide weather and fire protection.

Halar is an excellent coating because it offers all of these characteristics over a wide range of temperatures. Halar® ECTFE is suitable for protection and anti-corrosion applications thanks to its unique combination of properties.

This product can be applied at different thickness variations to help with corrosion resistance and can be applied as a pin-hole free solution.

EXAMPLE APPLICATIONS

- Bearings
- Wire
- Cams
- Racks
- Valve Seats
- Pipes

PROPERTIES

CORROSION	Resists most aggressive organic and inorganic solvents
HEAT RESISTANCE	Up to 300°F continuous
COATING THICKNESS	010"-.040"
