

# KECO 600

## KECO Coatings

KECO 600 is a thermal spray, plasma, wire arc, metalizing and flame spray. Applications include chromium carbide, chromium oxide, tungsten carbide cobalt and others which are designed for long-term performance. KECO 600 is formulated for thermal barrier, wear and surface restoration. Due to strength and density of plasma coating, it makes for a favored option for equipment protection and refinishing.
